

ONLINE PIANO LESSONS

technology and equipment recommendations

EQUIPMENT NEEDED FOR SUCCESSFUL ONLINE PIANO LESSONS

For all students taking online lessons:

- High speed internet
- A computer or tablet
- Headphones
- *Helpful, but not required:* a second device (such as a phone), for using a metronome app or playing duet parts.

Piano-specific recommendations:

- A keyboard or piano
- *Helpful, but not required:* a secondary camera or webcam
 - This will be situated above your keyboard so your teacher can really see your fingers as you play.
 - For this, you need a microphone boom stand, a webcam attachment, and a webcam.
